

INFORMATIONAL BOARD LETTER

A handwritten signature in cursive script, appearing to read "Quiñones", is positioned above a horizontal line.

JANISSE QUIÑONES

Chief Executive Officer and Chief Engineer

DATE: September 11, 2024

SUBJECT: Notice of Compliance Status Report – As of August 31, 2024

Attached is a status report on the Notice of Compliance (NOC) requests received and issued by the Labor Relations Office (LRO). The information is as of August 31, 2024.

An NOC is required if the Los Angeles Department of Water and Power (LADWP) seeks to contract work for outside services that include a labor component. The LRO is responsible for issuing an NOC as verification that proposed contracts are in compliance with contracting out procedures under applicable City Charter Section 1022 and a labor organization's Memorandum of Understanding (MOU). Per the applicable MOU language, the LADWP must notify its labor organizations of proposed contracts involving bargaining unit work.

It is the responsibility of the requesting LADWP Division to submit a completed NOC request to the LRO. The LRO will notify the appropriate labor organization as needed and will help facilitate any requested meeting(s) with the labor organization with the goal of securing agreement. The LRO does not typically issue an NOC for a contract containing bargaining unit work to a requesting Division until a mutual agreement to proceed is reached with the labor organization.

A total of eighteen (18) NOCs were issued from August 1 to August 31, 2024, totaling \$468,427,733. Since the last update provided to the Board of Water and Power Commissioners on August 27, 2024, the number of pending NOC Requests has decreased from seventy (70), totaling \$6,032,320,569, to sixty-four (64), totaling \$8,119,106,519. The increase in the total dollar amount of pending NOC Requests of \$2,086,785,950 can largely be attributed to the new following contract received:

- Plug Into Power – Community Distributed Energy Resources, Requisition No. 140568 for Distributed Energy Solutions, totaling \$2,980,000,000 (Line Item 59).
