

WHEREAS, the Los Angeles Department of Water and Power (LADWP) is committed to providing safe, reliable, and cost-effective water and power in a customer-focused and environmentally, responsible manner; and

WHEREAS, LADWP is developing and implementing a wide variety of solutions to increase reliability and maintain the high quality of water throughout the City of Los Angeles (City) through infrastructure improvements system-wide; and

WHEREAS, LADWP is developing and implementing comprehensive infrastructure, energy resource, and grid modernization solutions to rapidly transform the Power System to achieve 100 percent Clean Energy by 2035 pursuant City Council File 21-0352; and

WHEREAS, the Federal government passed the Infrastructure Investment and Jobs Act (IIJA), also known as the Bipartisan Infrastructure Law (BIL), and the Inflation Reduction Act (IRA) to provide funding assistance to states, cities, and various agencies through loan and grant funding programs to modernize and reinvigorate America's infrastructure with climate-ready investments in energy, transportation, water, and telecommunications; and

WHEREAS, the State of California's (State) budget surplus in 2021 and 2022 allowed for the allocation of billions of dollars in future years for water supply, drought response, and clean energy efforts; and

WHEREAS, many of the existing and new funding programs established by the IIJA/BIL, IRA, and State require an official resolution from the Board to authorize submission of an application for grant or loan funding; and

WHEREAS, notices of funding opportunities from Federal and State grant and loan programs have limited timeframes for preparation of applications and strict deadlines for application submittal requirements; and

WHEREAS, LADWP requires limited delegated authority to efficiently and expeditiously apply for funding opportunities to keep pace with funding opportunity deadlines and reasonably increase the probability of acquiring funds.

NOW, THEREFORE, BE IT RESOLVED that the Board of Water and Power Commissioners (Board) authorizes the Senior Assistant General Manager – Water System and Senior Assistant General Manager – Power System or their designees to submit applications for Federal and State grant and loan funding programs for the planning, design, and construction of eligible Water and Power System capital improvement projects, respectively.

BE IT FURTHER RESOLVED that the Board hereby designates the Senior Assistant General Manager – Water System and Senior Assistant General Manager – Power System or their designee to provide the assurances, certifications, commitments, and other related documents required for said Federal and State grant and loan funding program applications in order to meet all pertinent funding program deadlines and requirements.

BE IT FURTHER RESOLVED that the Board hereby designates the Senior Assistant General Manager – Water System and Senior Assistant General Manager – Power System as the legally authorized representative to enter into funding agreements or any amendments.

BE IT FURTHER RESOLVED that Water and Power Systems will notify the Board upon notice of award and issuance of grant/loan terms and conditions and obtain Board approval to accept the award and enter into funding agreements.

BE IT FURTHER RESOLVED that the General Manager or his/her designee shall provide quarterly updates to the Board on grant and loan applications submitted, status of previously submitted applications, notices of awards, and notices of unsuccessful applications submitted.

I HEREBY CERTIFY that the foregoing is a full, true, and correct copy of a Resolution adopted by the Board of Water and Power Commissioners of the City of Los Angeles at its meeting held August 15, 2023
