

INFORMATIONAL BOARD LETTER

A handwritten signature in black ink, appearing to read 'Janisse Quiñones', is positioned above a horizontal line.

**JANISSE QUIÑONES**  
Chief Executive Officer and Chief Engineer

**DATE:** December 20, 2024

**SUBJECT:** Notice of Compliance Status Report – As of November 30, 2024

Attached is a status report on the Notice of Compliance (NOC) requests received and issued by the Labor Relations Office (LRO). The information is as of November 30, 2024.

An NOC is required if the Los Angeles Department of Water and Power (LADWP) seeks to contract work for outside services that include a labor component. The LRO is responsible for issuing an NOC as verification that proposed contracts are in compliance with contracting out procedures under applicable City Charter Section 1022 and a labor organization's Memorandum of Understanding (MOU). Per the applicable MOU language, the LADWP must notify its labor organizations of proposed contracts involving bargaining unit work.

It is the responsibility of the requesting LADWP Division to submit a completed NOC request to the LRO. The LRO will notify the appropriate labor organization as needed and will help facilitate any requested meeting(s) with the labor organization with the goal of securing agreement. The LRO does not typically issue an NOC for a contract containing bargaining unit work to a requesting Division until a mutual agreement to proceed is reached with the labor organization.

A total of fifteen (15) NOCs were issued from November 1 to November 30, 2024, totaling \$364,469,900. Since the last update provided to the Board of Water and Power Commissioners for the month of October 2024, the number of pending NOC Requests has decreased from fifty-eight (58), totaling \$8,548,852,365 to fifty-two (52), totaling \$8,554,573,084. The increase in the total dollar amount of pending NOC requests of \$5,720,719 can largely be attributed to the new following contract received:

- Air Conditioning Optimization Program, for Distributed Energy Solutions, totaling \$125,000,000 (Line Item 51).
